

FEATHER RIVER RAIL SOCIETY

DATE: November 2022
ITEM: Director Report
FROM: Eugene Vicknair

2023 PHOTO CALENDAR

Photo calendar is being delivered from the printer this coming Monday or Tuesday. We already have a number of orders.

FALL FUNDRAISING LETTER

The Fall Fundraising Letters are being printed and should be in the mail soon.

SANTA TRAIN ADVERTISING

The Santa Train posters have shipped from the printer. We have been promoting on social media and other outlets.

WESTERN PACIFIC COACH 302

Coach 302 arrived and was off-loaded. Duane van der Veen has already been working on some leaks and openings in the roof and blocking the one window that blew in during transport. Fundraising continues. We have received a \$2,000 matching donation and more are coming.

STORE HVAC INSTALLATION

The new HVAC unit for the Museum Store has arrived and the plan is to install it next weekend (Nov 19-21). Eric McKay and I will be working on it.

PART REPLICATION

As they have time, my company's staff engineers have been modeling some parts for the museum in SolidWorks. This will allow us to replicate these parts and sell copies to other museums. This is being done at a reduced billing rate and I am donating all my time associated with this work.
