

## **FEATHER RIVER RAIL SOCIETY – AGENDA REPORT**

DATE: September 10, 2013  
FROM: Kirk Baer and Eugene Vicknair - Directors  
ITEM: New Business 2  
SUBJECT: Completion of Property Surveying

Tibbedeaux Surveying has completed the initial review of the property and has found that performing a complete survey will require additional research and line finding, as well as in field surveying. Specifically, the eastern property line, including the Hospital property, and some of our line with the Union Pacific yard needs to be defined.

A full report and estimate has been provided. The work will take 6-8 weeks and will cost about \$10,400.

As this is critical to improving the security of the facility, we recommend that the Board approve this expenditure and allow Tibbedeaux to complete the whole property survey.

**REQUESTED ACTION:** Approve an expenditure authorization not to exceed \$11,000 under line item 70025 – Fencing, funds to be taken from the income we are receiving from the equipment scrapping and sale of the Fourth Street house.
