

FEATHER RIVER RAIL SOCIETY – AGENDA REPORT

DATE: February 4, 2014
FROM: Eugene Vicknair – Director
ITEM: Director Report

SUBJECT: Train Sheet

Of the final two issues of the Train Sheet I am producing, the one I thought was in press a few months ago was in fact delayed due to a communication foul up that was totally my error. It is now back on track and in production. Layout on the second is complete and it is going to press. This second issue has nothing but election info, steam report and minutes.

SUBJECT: WP 501 Kickstarter

We should be live with the Kickstarter soon. I have been working with Kickstarter to reshape the gift premiums to conform to their requirements, which meant that we could not offer the books and some other gifts. This has required me to rework the premiums.

SUBJECT: Equipment Sales

I have emails / phone calls in to the potential buyers of the SP 4404 and O&NW Baldwin requesting that these deals be completed. Also, an interested party has stepped forward for the NVR 51 Baldwin. They are a new heritage group in Canada.

The possible buyer of the VIA lounge car is setting up a site visit with Rod McClure.

If we do not have movement on these sales by the March meeting, I will recommend that we relist these items for sale or consider other alternatives.
