Union Pacific Foundation Grant

Vice-President Steve Habeck has informed me that we have been successful in our application for the Union Pacific Foundation Grant to support our archives program. As directed by the Board, we applied for \$3,000 toward work on an archives research room. With the award of the grant, a final proposal for the room will be presented at the March meeting for review and approval.

Future Grants

I have been continuing my work with the grant writing / seeking agency that we were referred to by the city of Portola. We have identified about 5 appropriate grants and are working toward at least 2 applications for the first part of 2016.
