

Bruce & Linda Yparraguirre
Model Railroad Donation - Storage
NB-3 September 2016 (Carter)

Last month, as Alicia & I neared completion of the inventory process on the Yparraguirre Model Railroad donation, it became apparent that with the number of items that were to be sold, that we would need to find a suitable storage for it off site near our home in Stockton. A suitable facility was secured, however, last month, this was tabled until this month's meeting. I paid for August's storage out of my own pocket and request reimbursement, and ask that we approve monthly expenditure of \$120 per month for the storage of this collection. It is estimated that we would need storage for the next 6 months until we sell off the items we are not retaining for the museum.

Requested Action:

Approval of the recommended expenditure for storage
