917-D is on it's third siesta from service. This time was planned after another low water incident, to rebuild a water pump, clean the water tank sight glasses, and make plans for radiator repairs. So far, the repairs have taken longer than we thought, causing the loss of a rental from a guy who has rescheduled 3 times. 1100 & 2873 have been fine as long as 2873 gets filled every 4 days or 10 hours of operation, whichever comes first.

Craig will be gone from July 23rd till Sept. 5th. Bil, Loren and I will make sure that is covered, and have been doing it so far.
