Well, it's calmed down but September & October have posted better numbers than were present in the September report, which makes me happy.

Mechanical has informed me to not take bookings for 917-D for the 2019 season yet due to the mechanical work planned on the locomotive that I wholeheartedly support since the poor girl really needs some heavy TLC. Google Calendar is already update to reflect that with June 1st as a temporary placeholder end of work that easily be moved back should the work take longer.

1100 & 2873 have been fine as long as 2873 gets filled every 4 days or 10 hours of operation, whichever comes first.

No special 2001 rentals, or bookings for it.

All info as of 10/9/2018 at 0930.
