DATE: December 2019  
ITEM: New Business Item 5  
FROM: Kerry Cochran and Eugene Vicknair

### WP CONVENTION CUSTOM MODEL CAR

We have received a quote from Accurail for a build of 48 custom HO scale boxcars in Western Pacific scheme. The car would be an outside braced Pullman 40' wood boxcar from the 26001 series.

These cars for rebuilds from the original 1916 built 15001 series and were in service on the WP from 1937 until the late 1970s. Some could be seen in MOW service until just before the merger.

Accurail would provide a decal sheet to allow modelers to put on their own custom numbers in the 26001 series.

Cars would be delivered 2 weeks prior to the convention.

Cost per car is \$21.87 including shipping. Sale price to convention goers would be \$32.00.

Order requires \$500 deposit. Greg Elems has offered to donate toward the deposit.
