

FEATHER RIVER RAIL SOCIETY

DATE: December 2019
ITEM: Director Report
FROM: Eugene Vicknair

2020 WESTERN PACIFIC CALENDAR

2020 WP Photo Calendar has been delivered and Greg Elems and KC handled mailing them out. We also sent out a wholesale offer for the CZ 70th book and the 2020 calendar to our Headlight vendors.

ARCHIVES RESEARCH FACILITY

Greg Elems (with some help) has been unloading the Staff Collection and some of the stuff in the Archives Research Car into temporary storage. Ed Powell has the climate control working in the car except for the external air condition condenser, which will be installed in a few months. I ordered the first batch of material to start the major rebuilding of the car interior now that Kerry Cochran has the main electrical working and Ed has the climate control in. Greg picked up most of the materials when it arrived. Greg and I spend about 6 hours Friday, Dec 13 clearing out the eastern 35 feet of the car to facilitate construction of the secure archives storage. David Elems also assisted.
