

FEATHER RIVER RAIL SOCIETY

General Superintendent's Report

Kerry Cochran

Date: April 5, 2020

While the museum is closed for the winter, there are still some of our volunteers coming in to the museum to keep up with the mail, the museum store, (limited to checking phones and email) and several other small items that need attention while we are closed.

One of the largest issues facing the museum now, is the shelter in place orders for the State of California. The Board of Directors will be discussing this issue again at our Board of Directors meeting April 11th.

The COVID-19 virus will no drought impact the museum's operation for the year 2020. We have delayed the opening of the museum until May 1st, and with the ever changing events, that may change also.

Our yearly WP Convention has been postponed to be rescheduled at a later date, hopefully this year.

Accurail has sent the 2020 WP Convention cars and we should be receiving them soon. Please check the convention web pages for information on these cars.

While there are only a small handful of volunteers keeping some of the important items at the museum running, we must all consider the impact that the virus is having on all of us.

One thing that members or the public can do is to visit our web cameras and take a look at one side of the museum. (yes, we know the West camera is tilted down) the snow and ice has played a bit with one of the views and we will get it fixed sometime in the future.

Check the FRRS web site for updates as we are posting news as it becomes available.

"As always, there are so many volunteers that help around the museum all the time and I would be remised if I did not say thank you to all of you. I may have missed some specifically by name; however all of your help is greatly appreciated".

At any time should you have any questions, please feel free to contact me, I may not have an answer right away, however I will get one for you.

Kerry Cochran
Director/General Superintendent
