## **ONLINE STORE**

The credit card system is now working for the online store. I am currently performing test orders and have asked a small group of our volunteers to evaluate the store and make test orders. They have uncovered some issues that I am now troubleshooting. Have also connected Ann Carey to the invoice system and am working with her to get her trained on the system and order fulfillment.

## **2021 PHOTO CALENDAR**

The printer is working on the calendar. It should arrive in about 2 weeks.

With the go ahead from Greg Elems, we started taking orders last Tuesday. As of Thursday, we have already sold about 18 calendars.
