There is a lot happening this quarter, but for it to be shared with our membership and the public, people at the events will need to step up and take some photos and send me stories!

We have not had articles for the *Train Sheet* from either the Mechanical Department (issue 194) or the Steam Department (issue 193) for several issues. A lot is happening that could be shared with the membership.

As of this writing, I have about eight pages of content. With only three weeks before publication, I need more input to make a typical issue on July 1st. I ask anyone willing to provide an article to please inform me ASAP as I am working on the issue and need to plan the issue's layout and spacing.
