PORTOLA CITY PARK SIGN
City Manager Todd Roberts requested that I create a 24" X 18" sign with information on the museum and a map showing the location of the museum in relation to the park and Old Town.

I completed a couple of drafts and sent a polished one to several of our directors and members for comment. Then worked with Todd on final details.

He liked the sign and I understand if will be installed in the park on Friday, June 5, so it should be in place for the Board Meeting.

I have also suggested that they place a similar sign in Old Town itself. He is considering that.

UP 6946 STAIRS
I have received one updated quote for the IBC rated access stairs for the UP 6946. I am waiting on two more and having discussions on ways to lower the costing. Prices have gone WAY up since the preliminary quotes for the grant application.

We received $5,000 in grant funds from the UP Foundation for these. The one quote I have is for $10,000 (up from just under $8,000) with almost $4,000 just in freight shipping.
