

Notes

- 1 It appears the unit was painted with "Red Lead" sometime in the past.
- 2 Believe the 3 1/2 x 1 1/2 between the uprights was a mounting plate for the hinges of a missing lid.
- 3 There is conjecture that this unit did have a lid and its missing.
4. All vertical panels consist of two sub panels that are joined by Tongue & Groove. The subpanels are inter assembled by joinery for any horiz. joint and glue for all vertical joints.

Title:	WP MK 13 Portable Disposal System.	Drawing # 14- Rev. 22c
Status:	Retired. Awaiting scrapping.	See Drawing 37 Rev 7 for Revision History.
Measurement Time Frame:	July, 2005	Location: Deadline, Aspen Rd Portola.
Measured & Drawn By:	James Halliwell	Drawn with: Turbo Cad ® 11.1
Scale:	1/10	1.2" = 1'
