

You Can't Get Here From There...

The Great Locomotive Move

Top left: 1215 is on her last day in the park, her lettering is touched up for the trip. She isn't "running downhill," she just has sunk into the ground that much!
Left Center: The Prep Crew, l. to r., Doug Morgan, Norm Holmes, Dr. Peter Lyman, Ken Iverson, Ken Hitch, Clyde Lippincott, David Dewey. Left: Moving Crew, l. to r., David Dewey, Norm Holmes, Mike Rypczynski, Doug Morgan, Dr. Peter Lyman, Ken Iverson, Taylor Heavy Haulin' Crew, Gary, Larry, Mark. Top Right: Turning the corner, 1215 is in King County the first day out. Above: Heavy Load, 1215 is at the scales at Bolthouse Farms, Bakersfield. Here we found out we were 218,000 lbs. loaded! They call this a "Purple Load" (color coding the state uses for bridge weight limits). All photos by David Dewey.
