THE STEAM GAUGE

We received a call from a man who wishes to remain anonymous, offering a \$5,000 donation along with the agreement that a foundation will match his donation 3 to 1. We received two checks totaling \$20,000 toward the restoration of SP 1215. He wants to see it run! It will take much more to complete the restoration, but this will give us enough to start.

First, we need to find someone who is licensed to remove the asbestos insulation. Then we can remove the piping, jacket and other appliances that are in the way. The asbestos needs to be removed and disposed of, then we can evaluate the condition of the boiler to see if it can be operated.

If you have an interest in this project, either by working on the engine or making a financial contribution, your help is most welcome. Contact David Dewey or Norm Holmes for further information.

The following generous people have made cash contributions. These donations go into our general account to pay ongoing operating expenses. Thanks people.
