

San Francisco, August 5, 1941.

Mr. C. C. Story.....Winnemucca

Referring to your letter of August 3rd concerning stakes for Clio section facilities:

The west face of proposed double bunk house is 100 feet east of east face of section house with the southerly face lined up with section house.

Stake the single bunk house so that its west face is 32 feet from the east face of double bunk house and the north face 15 feet south of south line of double bunk house.

In connection with inventory of passing track extension at Clio (A.F.E. 27-41) you will arrange to make inventory of track work while at Clio. Grading and culvert inventory already received.

T. L. Phillips. 

cc-Mr. A. A. Kramm.....Oakland
